2-1/2" Window & Door Casing
CertainTeed window and door trim puts out the welcome mat to create a lasting first impression. Lineal trim adds a wider face profile that can help unify and accent a home's exterior, adding a design element that can be both subtle and distinctive. For even more personality and charm, add crown molding, with or without a corner block & rosette above the door or window. It's a look you'll appreciate every time you cross the threshold into your beautiful home.

4-Piece Corner System

Beaded SuperCorner

Cornerpost and Inside Cornerpost

Traditional SuperCorner

Take your home from ordinary to extraordinary. Don't settle for traditional narrow corner trim with no depth. Go for something distinctive and beautifully unique. Blend traditional lap siding seamlessly around every bend with Vinyl Carpentry® Corner Systems or Cedar Impressions® Shakes and Shingles with inside and outside mitered corners. Use a 4-piece corner system to add a contrasting or coordinating color. Create elegance with an edge by adding corner systems and treatments that frame your home with distinction.

Cornice Molding
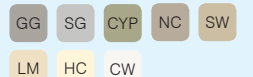

Attractive transitions between styles, architectural elements and colors are the best way to ensure a uniform design on any home. CertainTeed offers a wide variety of wall and soffit transition options for you to create beautiful transitions, while providing protection from damaging moisture.

Wall & Soffit Transitions

Explore Your Options

Trim provides a beautiful transition between two styles of siding. On long expanses of board & batten or soffit, a trim piece offers a way to add a signature outline or focal point. Also, consider a trim piece to transition from the wall up to the soffit.

Create a transition using a band board with foam insert, or create your transition using a wide-faced lineal.
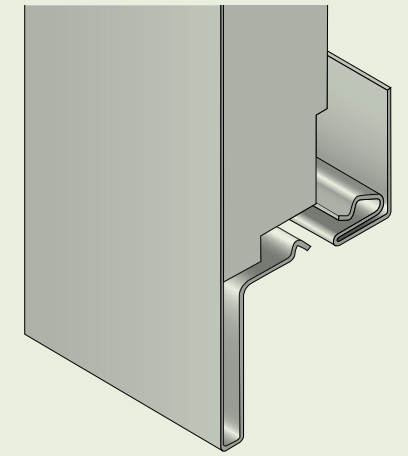

A **band board** makes an excellent wall transition.
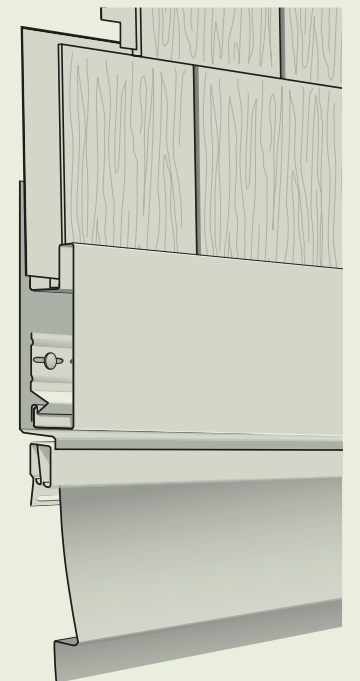

Lineals can transition lap siding to Cedar Impressions.

Find Your Perfect Color Mix

Designers are using every conceivable color combination to create distinctive exterior designs with a modern sensibility. You can do the same thing with your home. The optimum color blend has the power to bring out the best features of your home. Whatever your color goal is, CertainTeed can help you reach it.

This home has a cool theme (selection of cool grays), but it also has a subtle theme because these grays have similar color intensity and value.

This home has a warm theme with a cool accent (green), and the colors are stronger than a typical home.

Trim Color Combinations

Traditional white trim accentuates windows cleanly with any color siding, as shown below. Other options (left) include a more subtle combination, with trim and siding closer in hue and intensity; or a reversal of dark trim with light siding as a powerful way to frame your home.

Siding: Cedar Impressions Double 9" Staggered Rough-Split Shakes in natural clay
Trim: Restoration Millwork in white. Corner Trim is Cedar Impressions matching mitered corner in natural clay
Roof: Landmark in resawn shake
