

Siding Built Perfectly
For New England Homes

EVERLAST
COMPOSITE SIDING

Time to Love Your Home...for Life

Nothing on the market compares to Everlast siding or the value it provides homeowners. Imagine your home beautifully clad in upscale natural cedar, but with none of the hassles and maintenance costs associated with real wood, engineered wood, or fiber cement. Imagine never having to paint your home again. Imagine your siding decades from now, remaining as pristine as the day it was installed. Imagine ultimate peace-of-mind with the industry's best transferrable limited lifetime warranty, including fade protection.

What you imagine is Everlast — the only siding that lets you love your home...for life.

Material Science Meets Unparalleled Artistry

A technological leap in material science, Everlast siding features C CORE® mineral-enriched composite substrate that is virtually impervious to siding's #1 enemy – water. To this remarkable substrate, an advanced UV-resistant acrylic capstock is molecularly fused and then embossed with the actual grain pattern of rough-sawn top-grade cedar, producing Everlast's **CedarTouch®** finish, the most authentic on the market.

Everlast® Lap Siding
Sand Dune

Unlike real wood, engineered wood, and fiber cement siding:

-  Everlast siding forever eliminates painting and caulking
-  Everlast siding is virtually impervious to water
-  Everlast siding is highly resistant to fading and discoloration
-  Everlast siding never bows, warps, splits, or swells
-  Everlast siding is insect-resistant
-  Everlast siding is ideal for wet and harsh climates

Siding's #1 Enemy is Simply No Match For Everlast

Testing to compare Everlast siding's water absorption rate compared to engineered wood and fiber cement reveals a dramatic difference. Everlast's absorption rate is negligible, while engineered wood and fiber cement require diligent maintenance to achieve effective moisture protection.

EVERLAST LAP SIDING

Timeless Clapboard-Style Appeal

Traditional clapboard siding has never gone out of style. Available in two widths to accommodate regional and personal preferences, your home will reflect classic style, luxury, and comfort decade after decade. Choose Everlast Lap Siding exclusively, or combine with Everlast Board & Batten.

Color Palette

The Everlast Lap Siding palette* – including deep, rich hues – has been thoughtfully curated by color consultants to complement any style of home, regional preference, as well as both current and classic color trends.

NOTE: Colors may not be exactly as shown due to printing limitations. Consult a product sample before final selection.

* Please contact your Everlast dealer for product availability.

LAP SIDING

TWO WIDTHS AVAILABLE FOR YOUR IDEAL HOME

Standard Lap Siding

Narrow Lap Siding

Engineered to Withstand High Winds and to Help Ensure Installation Perfection

Everlast Lap Siding's EZStack interlocking joinery prevents siding from rattling in high wind conditions, while enhancing the siding's ability to withstand high wind forces, ensuring that your siding remains firmly affixed. EZStack joinery also assists installers by helping to ensure that your siding is perfectly level and spaced for optimal aesthetics.

Enjoy the Tightest, Most Discreet Seams on the Market

Each Everlast Lap Siding plank-to-plank seam is reinforced with a stainless steel bracket to produce the strongest, longest lasting, and best looking seams on the market. Even better, no caulking or flashing at seams is ever required.

Everlast siding seams, tightly joined with stainless steel brackets

With fiber cement and engineered wood, thermal expansion and contraction causes siding seams to open and close throughout the year. Caulking these seams only provides a temporary fix. And unsightly joint caps are no solution.

Failed caulked seams on fiber cement siding

Unsightly joint caps on engineered wood siding

EVERLAST BOARD & BATTEN SIDING

Contemporary Rustic Charm

Choose Everlast Board & Batten to give your home rustic, yet highly contemporary, appeal. Use Everlast Board & Batten exclusively, or combine with Everlast Lap Siding.

Efficient One-Piece Design

Unlike other board and batten siding products that require two pieces – both a board and a batten – Everlast Board & Batten combines these two pieces into one to eliminate unsightly fasteners and to help ensure top quality installation.

Color Palette

The Everlast Board & Batten palette* features the same hues as Everlast Lap Siding and complements any style of home, regional preference, as well as both current and classic color trends.

NOTE: Colors may not be exactly as shown due to printing limitations. Consult a product sample before final selection.

* Please contact your Everlast dealer for product availability.

Enjoy the Ultimate Peace of Mind and More

With a siding system as superior as Everlast, it's easy to understand why it's backed by the industry's best, most comprehensive residential siding warranty. With Everlast, you get peace of mind from a limited lifetime manufacturer's warranty, courtesy of Chelsea Building Products. This comprehensive warranty also provides fade protection. Plus, should you sell your home, your Everlast warranty is transferrable to the new owner, further enhancing resale value.

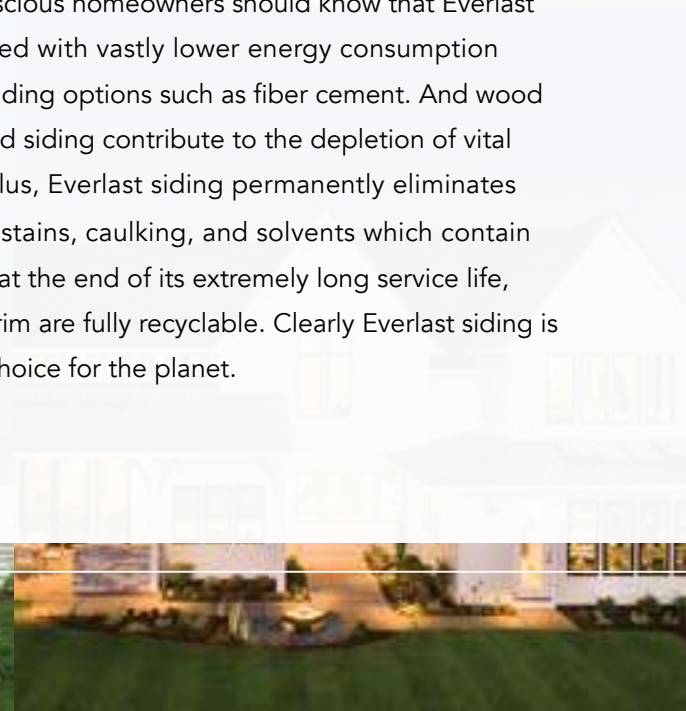

Visit www.EverlastSiding.com for complete warranty details.

The Environmentally Responsible Choice

Environmentally conscious homeowners should know that Everlast siding is manufactured with vastly lower energy consumption compared to other siding options such as fiber cement. And wood and engineered wood siding contribute to the depletion of vital forestry resources. Plus, Everlast siding permanently eliminates the need for paints, stains, caulking, and solvents which contain harmful VOCs. And, at the end of its extremely long service life, Everlast siding and trim are fully recyclable. Clearly Everlast siding is a far more sensible choice for the planet.
